

Sofia Dominguez

The Native Americans in the Great Lakes Region

The objective of this multimodal text set is to give my students the resources to answer the following prompts:

- What were the probable causes and effects of events in Illinois' history?
- What were the connections among historical contexts and why individuals/groups differed in their perspectives during the same historical period?
- Using artifacts and primary resources, investigate how individuals contributed to the founding and development of Illinois.

My guiding questions for the multimodal text set are as follows:

- Who were the original inhabitants of the Illinois and Great Lakes region?
- What were the causes of the migration of the Native Americans of the Illinois & Great Lakes region?
- Are there currently any federally recognized tribes located in Illinois?
